

It's time to rethink the treatment algorithm

Have you incorporated renal denervation into your treatment strategy for resistant hypertension? We invite you to submit an abstract highlighting your clinical experience, outcomes, or case-based insights with this innovative therapy.

Be part of the scientific dialogue at the XXIInd IASH Meeting, where leading minds in hypertension come together to share breakthroughs and shape the future of cardiovascular care.

 **Meeting Dates:** January 15 -17, 2026

Location: Hotel Barceló, Guatemala City, Guatemala

Registration and Abstract Submission:

August 1 – October 31, 2025 at www.iashonline.org

(Abstracts accepted for presentation will be published in the American Journal of Hypertension)
